

How to make a Paper Airplane

1

find an 11 by 8.5 sheet of paper

2

fold the paper in half on the long edge - make a crease

3

Open up the paper back to it's original 11 by 8.5 state.

4

Take the corners of the top of the paper and fold them into the middle of the crease - do one at a time.

5

Repeat using the new corner made by the fold in instruction 4.

6

Fold along the main crease to close the folds like a book.

7

Fold the paper inside out and unfold the wings from the body.
